SUSTAINABLE DESIGN

Our company is committing to Sustainable Design. We are working to reduce consumption of non-renewable resources, use recycled materials for packaging, minimize waste, also create good condition for social and environments.

RENEWABLE MATERIALS

Our furniture is made from natural and renewable sources.

The main raw material of our products is rattan, but we produce also furniture from other renewable sources like water hyacinth and seagrass.

OUTSTANDING CRAFTMANSHIP

Our furniture is mostly handmade. Our seasoned craft man can produce complex and outstanding decoration by hand. We are also able to make your own design or sample request.
